

7th Southeast European
Conference on Chemotherapy and Infection

7th SEEC
2016

October 13-15
SIBIU, ROMANIA

ORGANIZED BY:

ROMANIAN SOCIETY FOR CHEMOTHERAPEUTICS STUDY
UNIVERSITATEA "LUCIAN BLAGA" SIBIU

UNDER THE AUSPICIS:

INTERNATIONAL SOCIETY OF CHEMOTHERAPY (ISC)
FESC - INTERNATIONAL ASSOCIATION OF THERAPEUTIC DRUG
FESCI - FEDERATION of EUROPEAN SOCIETIES for CHEMOTHERAPY
and INFECTIONS
MONITORING AND CLINICAL TOXICOLOGY(IATDMCT)
ROMANIAN ACADEMIE OF MEDICAL SCIENCIES

INTERNATIONAL SCIENTIFIC COMMITTEE

Bruno Baršić	Krassimir Metodiev
Bojana Beovič	Enrico Mini
Ian Gould	Kurt Naber
Camelia Grigore	Mihai Nechifor
Serafim Kastanakis	Andrea Novelli
Vladimir Krcmery	Halit Ozsut
Hakan Erdem	Mijomir Pelemiš
Jette E Kristiansen	Georgios Petrikkos
Teresita Mazzei	Francesco Scaglione
Goran Stevanović	

ORGANIZING COMMITTEE

Mihai Nechifor
Camelia Grigore
Catalina Luca
Victoria Arama
Manole Cojocaru
Cristina Florescu
Cristina Ghiciuc
Victoria Barluti
Nicolae Grigore

Welcome Letter

Dear Colleagues,

It is a great honor for us to host the 7th Southeast European Conference on Chemotherapy and Infection (7th SEEC) in 13-15 october 2016, in Sibiu, Romania.

This meeting wants to continue, fruitful and successful , the tradition of Southeast European Conference on Chemotherapy and Infection, because the topics of Chemotherapy of infectious diseases and of cancer are major problems of ourdays medicine.

To reach our goals, the International Scientific Committee will prepare a scientific program that will cover a broad spectrum of topics. Most prominent scientists from SE Europe, the Mediterranean and worldwide will present the progress of chemotherapy as well as the difficulties in the field.

We invite everybody to participate to the 7th SEEC in Sibiu and to send their scientific proposals, submit abstracts for oral presentations, round tables and posters.

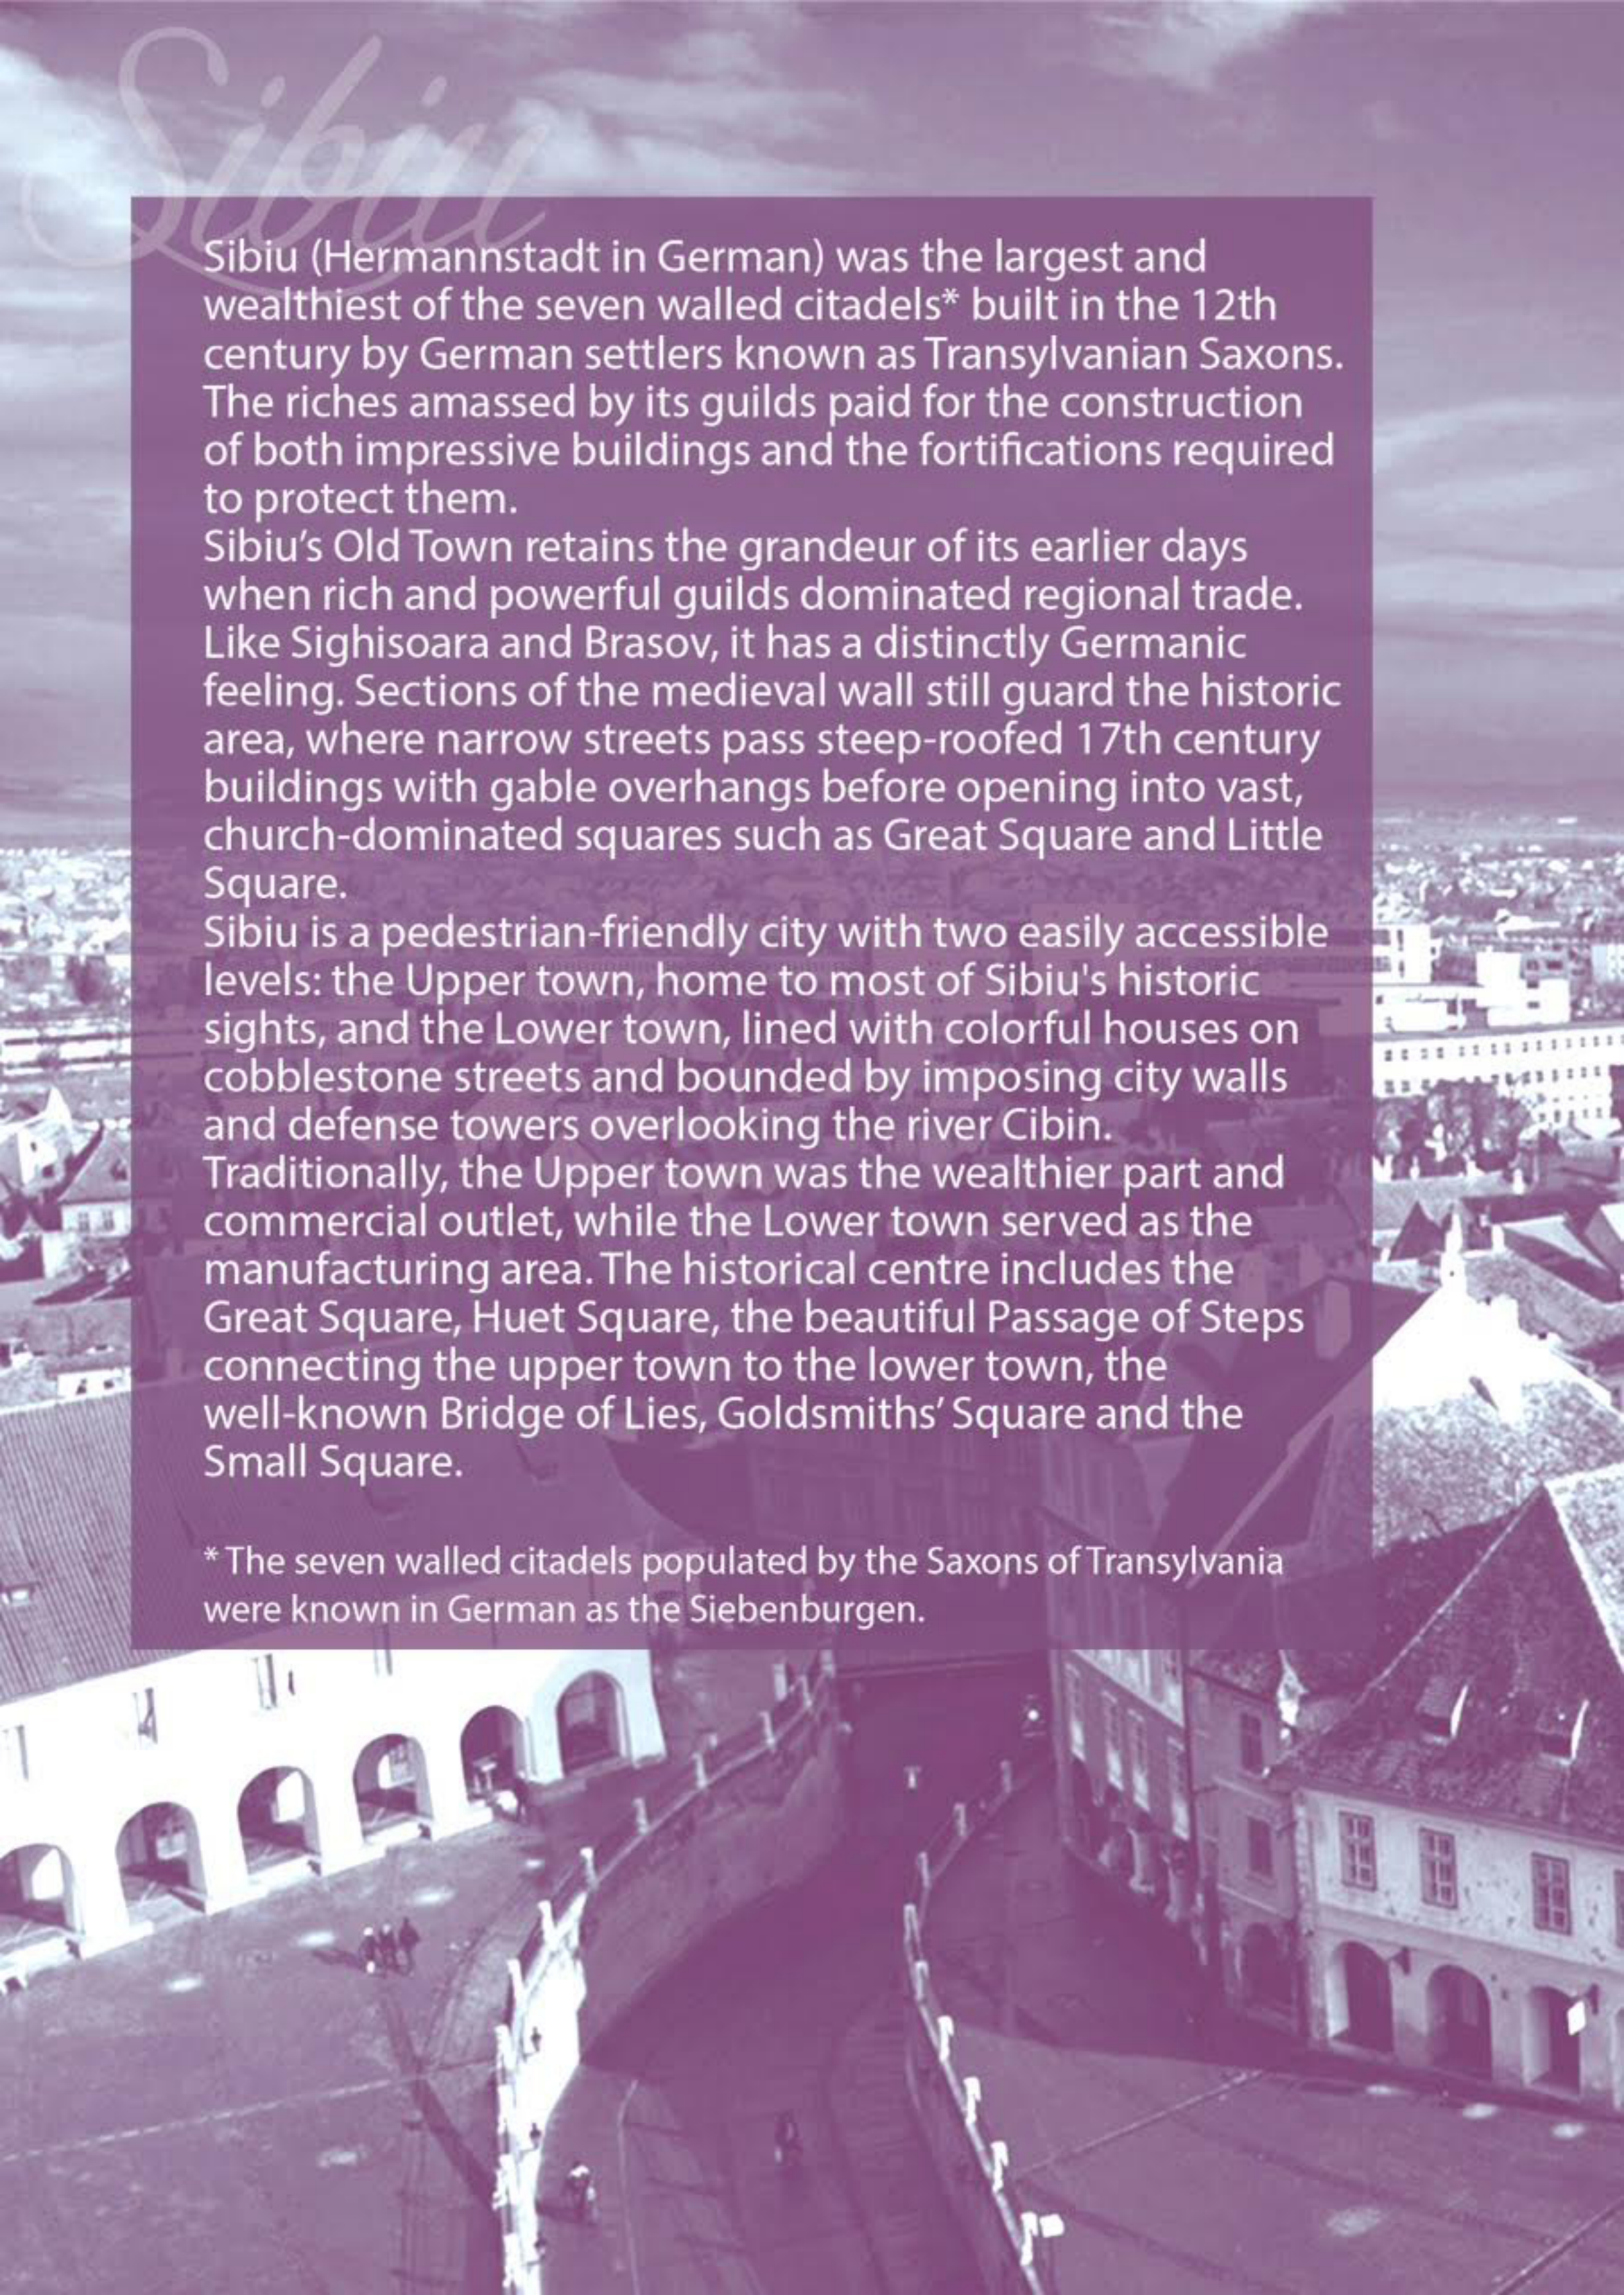

The 7th SEEC is a good opportunity to intensify the scientific discussions, to get new ideas and possibilities for collaboration in research, but also in the clinical practice.

Sibiu, our host city, former capital of Transylvania, is located in the central part of Romania and was the European Capital of Culture in 2007, being a very nice multicultural and historic city.

We wish you success in your scientific work and look forward to seeing you in Sibiu at the 7th SEEC, on the 13-15 october 2016.

Co- Chairs

Prof Dr. Mihai Nechifor & Dr. Camelia Grigore

An aerial photograph of Sibiu, Romania, showing the city's layout and the river Cibin. The image is overlaid with a semi-transparent purple rectangle containing text. The word 'Sibiu' is written in a large, white, cursive font in the top left corner. The background shows the city's architecture, including the Great Square and the Bridge of Lies.

Sibiu

Sibiu (Hermannstadt in German) was the largest and wealthiest of the seven walled citadels* built in the 12th century by German settlers known as Transylvanian Saxons. The riches amassed by its guilds paid for the construction of both impressive buildings and the fortifications required to protect them.

Sibiu's Old Town retains the grandeur of its earlier days when rich and powerful guilds dominated regional trade. Like Sighisoara and Brasov, it has a distinctly Germanic feeling. Sections of the medieval wall still guard the historic area, where narrow streets pass steep-roofed 17th century buildings with gable overhangs before opening into vast, church-dominated squares such as Great Square and Little Square.

Sibiu is a pedestrian-friendly city with two easily accessible levels: the Upper town, home to most of Sibiu's historic sights, and the Lower town, lined with colorful houses on cobblestone streets and bounded by imposing city walls and defense towers overlooking the river Cibin.

Traditionally, the Upper town was the wealthier part and commercial outlet, while the Lower town served as the manufacturing area. The historical centre includes the Great Square, Huet Square, the beautiful Passage of Steps connecting the upper town to the lower town, the well-known Bridge of Lies, Goldsmiths' Square and the Small Square.

* The seven walled citadels populated by the Saxons of Transylvania were known in German as the Siebenburgen.

In 1797, Samuel von Hahnemann opened in Sibiu the world's first homeopathic laboratory

Sibiu is home to the first hospital in Romania (1292), the first pharmacy (1494) and the oldest museum in Romania, the Brukenthal Museum, opened in 1817

The first book in the Romanian language was printed in Sibiu in 1544

TOPICS

- **Antibiotics** prescribing policies, antibiotics consumption and - therapeutic compliance
 - **New data** in microbial resistance
 - New **antibacterial** and **antifungal** drugs
 - **PK/PD** relationships of **antiinfective** drugs
 - **Clinical trials** for new antiinfective agents
 - **Collateral effects** of antiinfective drugs
 - **Antiinfective** drugs in **critically ill** patients
 - **Infections** in **geriatric** patients
- Importance of **laboratory practice** for antiinfective drugs therapy
 - **Therapeutic Drug Monitoring**: principles and challenges. Focus on antibiotic use in critically ill patients.
- **Medical education** regarding antiinfective drugs and antiinfective therapy
 - **Vaccines** and **vaccination**
- **Hepatitis** : epidemiology, problems and new therapy
 - **HIV** infection : **TDM** in treatment
 - **Progress** in **anticancer** therapy
 - **Therapeutic Drug Monitoring** in **oncology**

REGISTRATION FEES

200EUR(before 15 september 2016)

250 EUR (after 15 september 2016)

150 EUR for PhD students, residents

Including, meeting package [coffee breaks
&2 lunches], registration fee and the local
VAT

Accompanying person: 100EUR
